### INFORMAL HOP PROVES TO BE DELIGTFUL EVENT

PARK CITY, May 10.-The informal hop given last night in Maple hall by the younger set was the social event the younger set was the social event of the season and will long be remembered by those who were fortunate enough to be present. The Japanese scheme of decoration was beautifully carried out in every detail, making one of the prettiest parties seen in this city in a long while. The patrons of this event were the Misses Gieg, Thorpe, Wilson, Lambert, Pearson and Goodrich and the Messrs, Malia, House, Hampton, Le Compte, Culbertson and D. B. Shields.

A caucus of the Republicans of Park City precinct was held in the city hall yesterday and twenty-three delegates were selected to represent this precinct at the county Judicial convention, to be held in Coalville on May 12

Miss Katherine Hora, who has been spending the past month with Mr. and Mrs. V. J. Youngberg, returned to her home in Salt Lake yesterday.

Among those who came up from Salt Lake to attend the informal hop last night were Mr. and Mrs. M. W. Arm-strong, Miss Vida Richards and Alex Coalbath.

Gus Anderson, an old-time resident of this city, died here yesterday of heart disease. He was in his 52nd year. The deceased leaves two sons.

### COALVILLE REPUBLICANS SELECT SIX DELEGATES

Special to The Tribune.

COALVILLE, May 10 .- The Republicans of Coalville precinct held a caucus last night and elected the following six delegates to attend the county con-vention, which will be held here on Thursday morning: Frank Evans, T. L. Allen, Alma Eldredge, Frank Croft, C. R. Jones and Moses W. Taylor. Brief speeches were made by Alma Eldredge, T. L. Allen and W. H. Smith, who suggested to the delegates that they work for the men who would work to nomi-nate judges for this district who would see to it that the court is held at the county seat. In the past a great deal of the business concerning Summit county has been transferred to Salt Lake county by the judges, who sought to convenience the lawyers rather than of the litigants.

The funeral over the remains of the late Margaret Walker were held yester-day afternoon from the residence of Robert Walker and was largely attended. The speakers were Elder F. Wright and President M. W. Taylor,

Neff Brothers began to haul their wool to the depot yards today from Chalk creek, where they are shearing their herds. In a few days many hun-dred sacks will be here for shipment.

James Morby, C. R. Hancock, Thomas Rees, Zenos Morby and Al Stonebraker left here this morning for Grand Junction, Colo., where they will work on a contract for the Denver & Rio Grande getting out ties and bridge timber.

Albert Bullock of Salt Lake is here disiting his many friends and relatives. The young man will leave about the last of the month to fill a mission in Eng-

for July 4 and July 24. A committee consisting of Dr. Conroy, Charles Zoe-mer and O. M. Runyon, was selected to take charge of the races. These meets will undoubtedly be the best ever held here as the association will offer unusu-

ally large purses for each event.

A buildings and grounds committee was also selected, consisting of William Raymond, Thomas Etherington and William Craig, to take charge and supervise the grounds.

An accident came very near causing the loss of three lives in the Ogden river this evening. Just east of the Washington avenue bridge Lorenzo Jarman, driver of a delivery wagon for the Boyle Furniture company, drove into the river to allow his team to drink. As soon as the horses were through drinking he turned them around to drive out, when horses, rig and all suddenly plunged into a hole about ten feet deep

The wagon soon went to the bottom, dragging the horses down and drowning them both. Jarman succeeded in making his escape to the bank and, with the help of neighbors, rescued two small boys who were in the wagon with him. The two lads had the presence of mind to cling to the high seat of the wagon. They were taken out badly scared and slightly injured.

The horses and wagon are still in the river, the dead bodies of the animals can be seen floating on the surface chained to the spot by the harness and the submerged wagon.
